

join us and celebrate!

A YEAR AND A DAY 2024-2025

a simple score to create your own contribution

1 – **when, how and where do you notice the sky?**
how do you relate to it? how do you feel about it?

2 – **where do you notice other works by people about the sky?**
notice the many ways people express their relation to the sky:
what kind of sky art are they making? (stories, images, sayings, practices, etc.)
what about science, astronomy, astrology, sky-charts and navigation,
planets, stars & comets? balloons, satellites, air-planes?

3 – **how would you like to celebrate the sky?**
what is important for you?
what should happen and how?
when would be a good moment to do your sky celebration?
alone or with others?
in what kind of space & environment?

4 – **if the sky is a common good on this planet**
how can that influence our actions?
what is -or could be- our common wealth in the sky?
at this moment in time?

5 – at the time of creating www.skytime.org
Elaine Summers was equally exploring the internet.
how can it work? what does it do for us?
are you using the internet, and if yes, how?
would you like to include it in your skytime celebration?
would you like to focus on the internet?
as art, as a medium, another common good/wealth that we can own together?

for your online sky-postings on social media
use hashtags **#skytime #ayearandaday #ElaineSummers**
if what you will do also applies to the upcoming Centennial Celebrations in 2025
you can add the hashtag **#ElaineSummersCentennial**

send your idea to skytime@skytime.org
